

ONE DOG, TEN FROGS

CENA: 51,00 PLN

CZAS WYSYŁKI: 24 GODZINY

Producent: Orchard Toys

OPIS PRZEDMIOTU

Count and match the pairs in this fun memory game!

- Teach number sequencing
- Learn numbers up to 15!
- Single person activity or multi-player game

A giant floor activity, counting and memory game, with supersize cards for even more fun and play value! These include a variety of friendly characters to pair and count, helping children learn to count up to the 15 with the help of the handy reference board.

To play, players take turns to pick up a card and count the characters before picking up a second card and counting the characters on the second card. If both cards match the player gets to keep them; if not they are placed back on the floor face down and play passes on to the next player. Players can then use their memory skills to match the cards. Play continues until all the cards have been paired.

Once all the cards have been paired, players can then use the number reference board to help

make a jumbo number line with their supersize cards. *One Dog, Ten Frogs* can be played as a single person pairing activity or a multi-player game.

Contents:
